

## Retelling a story

### What's needed

Animal Mats

### How to play

(Example 'Dear Zoo' a child writes a letter to a zoo wanting a pet, the zoo sends loads of animals but they aren't right and then finally they send a dog which is right) read the story through and the children have to move like the animal to find the right mat and bring it back to the teacher. Could work with any animal story.

### The Setup
